

Angle head 90° for the Bird Pro series

The angle head 90° is designed for use in very narrow and confined spaces. The rugged design makes it possible to set blind rivets with a high setting force even in working areas that are difficult to access.

The angle head 90° can set standard blind rivets with a diameter up to 6.4 mm in all materials and 8 mm in aluminium with a setting force up to 20 kN. The smallest edge distance is 15 mm, the head length 110 mm.

The 17/45 WK nosepiece is included in the scope of delivery as standard. Nosepieces from 17/18 to 17/40 can also be used with the angle head 90°; however, this depends on the working range of the respective tool type (AccuBird® Pro, PowerBird® Pro or PowerBird® Pro Gold Edition).

Advantages

- Realisation of small edge clearances
- High setting force in tight installation areas
- Large stroke
- Simple assembly
- Compact and robust design
- Simple jaws maintenance
- Use of standard jaws

Dimensions in mm

The angle head can be positioned freely in every position (360°) on the tensile axis.

Part no. 146 4882

Technical data

Weight: 1.1 kg
Stroke: 23 mm
Traction power: up to 20 kN

Accessoires

Nosepiece: 17/45 WK (143 4948)
